

## Programme: Strategic Leadership, Innovation and Society in China

### Programme Dates

19 – 27 May 2019

### Location

Hangzhou, Zhejiang, China

### Description

This one-week study trip, which is an experiential programme to promote student leadership, will broadly cover the basic concepts of future leadership and topics in computer sciences, life sciences, medicine, innovation and strategic management, sociology and environmental arts. Students will be exposed to and learn from leading professors in their areas of expertise.

Classroom sessions will be conducted in seminar style with strong emphasis on peer discussion following short lectures. Students need to complete assignments required by each professor. Students, working in team of 4-5, and also need to complete a final project at the end of the trip.

### Post-trip Deliverables

Presentation and feedback session

*\*USP students who go on this trip will be required to also participate in a 1-week study trip in Singapore and to host students of CKC from July 21 to July 26, 2019. Further details will be released at a later period (\*except graduating students)*
